

Let Your Love Freely Grow

Refrain:

**Let your love freely grow from deep within.
Gift yourself as a friend; for others be.
Know God's love dwells within your deepest heart.
Open yourself to new life.**

1. Called to be faithful in each new day of life,
facing the challenges hope has brought to birth,
searching together to see the face of God,
listening deep from within. *Refrain*
2. Fears only hide us from who we can become,
keeping us bound in such false securities.
Rise in your strength; gift of God you are to be.
Dance and drink deeply of life. *Refrain*
